Peterborough, ON, Canada | 249-688-0232 | somareddy515@gmail.com | linkedin.com/in/soma-reddy-a7a6b0211
Portfolio: https://somareddy515-source.github.io/MY-Cloud-Network/

PROFESSIONAL SUMMARY

IT Support Technician with CompTIA Network+ certification (N10-009) and a Post-Graduate Certificate in Wireless Information Networking. Nearly two years as the first on-site contact for technical issues, troubleshooting POS systems, network connectivity, and hardware, documenting each case, and coordinating with vendors and service providers. Solid foundation in TCP/IP, DNS, DHCP, LAN, Wi-Fi, VPN, and routing and switching. Currently studying AWS cloud networking toward the AWS Certified Solutions Architect - Associate. Learns new systems quickly.

TECHNICAL SKILLS

Networking: TCP/IP, DNS, DHCP, LAN, Wi-Fi and wireless networking, VPN, routing and switching

Cloud (learning): AWS networking fundamentals: VPC, subnets, route tables, security groups, Route 53

Systems: Windows, POS systems, online ordering platforms, Microsoft Office (Excel, Outlook, Teams)

Support: Help desk troubleshooting, equipment setup, case documentation, escalation, user training, vendor coordination, customer service

Tools: Cisco Packet Tracer, ping, traceroute, ipconfig

CERTIFICATIONS

CompTIA Network+ (N10-009)

AWS Certified Solutions Architect - Associate (in progress)

PROFESSIONAL EXPERIENCE

Store Manager

Ghost Taco | Peterborough, ON | June 2024 - Present (concurrent with Regional Manager role below)

- Serve as the first on-site contact for technical issues, troubleshooting POS, network, and connectivity problems, documenting each case, and escalating unresolved issues to the right provider
- Coordinate with external service providers, suppliers, and field technicians on equipment repairs and unresolved issues, tracking each case from initial report through resolution
- Led the on-site installation and setup of a new POS system, migrating to Toast from TouchBistro, including hardware configuration, network and connectivity setup, and staff training
- Train staff on systems and troubleshooting procedures; promoted from Team Member within one year

Regional Manager, Operations and Systems

College Pro | Peterborough, ON | May 2025 - April 2026 (concurrent with Store Manager role)

- Managed scheduling, job tracking, and regional operations across multiple sites using digital tools
- Coordinated client communication and workflow execution, and improved efficiency through process documentation

SEPO Investigator

Amazon | India | December 2022 - July 2023

- Investigated account and transaction issues using internal systems, escalating complex cases cross-functionally

PROJECTS

- Built and published a personal portfolio website on GitHub Pages documenting my networking projects and cloud networking study
- Configured and tested a GRE VPN tunnel using Cisco Packet Tracer
- Simulated routing and switching scenarios and troubleshot network issues with ping, traceroute, and ipconfig

EDUCATION

Post-Graduate Certificate, Wireless Information Networking
Fleming College | Canada | 2023 - 2025

Bachelor of Technology, Electronics and Communication Engineering
Bharat Institute of Engineering and Technology | India | 2019 - 2022

Diploma, Electronics and Communication Engineering
TRR College of Technology | India | 2016 - 2019
